01 SUMMARY

Software developer with a Game Design background and a deep love of programming. Builds real-time 3D virtual training simulations and the GUI software behind them in C#, .NET, and WPF — always pushing to grow as an engineer and to craft polished, interactive experiences that people enjoy using.

02 EXPERIENCE

The DiSTI Corporation — Orlando, FL

Dec 2024 – Present

Software Developer II (Full-time) · Software Developer (Contract)

- Develop real-time 3D virtual training simulations and the graphical interfaces that drive them, primarily in C#, .NET, and WPF.
- Implement new features, debug and optimize existing systems, and collaborate with engineers and designers to deliver reliable, maintainable software.
- Promoted from contract Software Developer to full-time Software Developer II after consistent delivery and continued growth across the development lifecycle.

Cubic Corporation — Orlando, FL

Jun 2023 – Sep 2024

Technical Designer

- Developed 50+ immersive, interactive naval simulation training modules in Unity using PlayMaker visual scripting and custom C#.
- Designed 90% of the Human-Machine Interfaces (HMIs) used to simulate U.S. Navy equipment.
- Led a team of 10+ designers, ensuring contributions met departmental standards and maintained project cohesion.
- Optimized the development pipeline — cutting iteration cycles 40% and accelerating prototyping 30% — and built a streamlined workflow adopted project-wide that saved thousands of hours.
- Resolved 500+ issues (60% of total feedback corrections) and translated client feedback into hundreds of actionable tasks.
- Collaborated cross-functionally with SMEs, instructional designers, artists, and engineers using Agile (sprint planning, stand-ups, retrospectives).

Reitzes Consulting, Inc. — Remote

Mar 2023 – May 2023

IT Technician

- Provided remote IT support and systems troubleshooting, resolving hardware and software issues across Microsoft and Google Workspace environments.

03 SKILLS

Languages & Frameworks: C#, .NET, WPF, Python, PlayMaker, Unreal Blueprints

Tools & Platforms: Unity, Unreal Engine, Visual Studio, Git, Perforce, Jira, Confluence, Trello, Microsoft Office

Practices: Real-time 3D, Simulation, Game & System Design, Level Design, UI/UX, QA & Playtesting, Technical Writing, Team Leadership, Agile

04 EDUCATION

Full Sail University — Winter Park, FL

2019 – 2022

Bachelor of Science in Game Design
